

Chairman Powell & the FCC:

I call on you to hold an official public hearing in my state. Before the disastrous move to weaken media ownership (since overturned by Federal Courts) you had only one public hearing. FCC officials met secretly with the big money major broadcasters 71 times but, only 5 (can that be the truth? only 5 times) with public interest groups. To justify your actions you use deceptive, industry sponsored research. Is that like asking the fox why he is the best one to guard the hen house?

Big media is trampling over American citizens and democracy itself. This has to STOP!!! I DEMAND AN OFFICIAL PUBLIC FCC HEARING IN MY STATE. I demand impartial , verifiable research and open debates.

Please put democracy and the rights of the public ahead of the profit hungry media giants.

Sincerely,

Roger W Boas
